

**Innovative Communicator
Accelerator Programme**

Half-Day Workshop

miticomTM

**In this tough business climate we need to
communicate boldly and differently.**

Miti Ampoma

Who this workshop is for

This workshop introduces our Innovative Communicator Accelerator Programme (ICAP). The workshop is for individuals and teams who want to find out more about ICAP and get a taste of how it can help them transform their communication and leadership skills.

It's an extension of our two-hour workshop and so allows more time for you to experience ICAP in practice.

Who this workshop is for

To get the most benefit from the workshop you should either be a native English speaker or have English language skills at Upper Intermediate level or above*. If you need to improve your English skills before you can take part, we run bespoke English Immersion courses

** Language skills defined by The Common European Framework for Language (CEFR)*

What to expect

The workshop explores some of the key concepts covered in ICAP to give you an insight into the world of an Innovative Communicator. We use a variety of teaching methods which give you the opportunity to listen, question and explore throughout the morning.

By the end you'll have a clear understanding of what it means to be an Innovative Communicator and you'll have gained new skills that will help you begin to transform both your communication and leadership style.

We plan each course around the needs of the participants and our pricing reflects this.

Therefore please get in touch for more information about the cost of your course.
