You're ambitious, confident and keen to be in a position of leadership. You embrace technology but understand the need to balance this with genuine, human connection. While you respect those who've gone before you, you're hungry to create change in how business is run on a global scale.

# Who these courses are for

# What to expect

ICAP NEGL runs as a one-week residential course.

Throughout the course we'll challenge your assumptions, explore your personal values and ask you to consider your own learning, experience and ability.

We explore what we mean by the authentic me. We define what it means to be an Innovative Communicator. And we discuss the current global business landscape and the impact it has on you as a next-generation leader.

Once you've completed the programme you'll be an **Innovative Communicator**, with all the advantages this brings.

You'll be able to push your own boundaries. You'll be able to communicate in a way that **develops meaningful relationships** and builds a **loyal team**.

And you'll be at the heart of a movement that is putting **humanity, integrity** and **soul** back into business.

**We plan each course around the needs of the participants and our pricing reflects this.**
